# EZ Link
Quick start guide

LIC®

Getting to know the Zebra device

Scanning lens

Scanning

There are scanning buttons on either side of the device. There will also be a scan button on screen when required.

SCAN

Scan → ← Scan
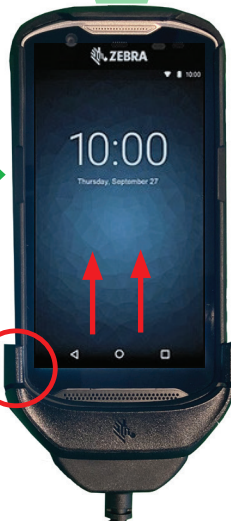

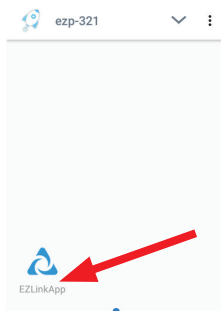

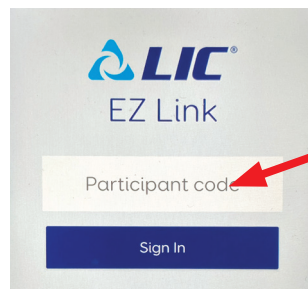

Unlock Screen

Unlock device by swiping the screen upwards.

Power button

Press and hold down once.

If the screen does not light up. Hold the Power Button down until the screen turns on.

Remove from Charger

To unclip from the charger push one side of the charger clip outwards.

Note: If you find yourself at this screen, Tap on the blue EZ Link App symbol to take you back into the app.

Rotary

1. Select ⟦≣ REVERSE⟧ to change bail numbers from ascending to descending.

WARNING: This can only be selected before entering first animal in session.

2. Tap on the bail to bring up below options:

3. Select the three dots in top right hand corner to display the following options:

4. When finished session select ← to go back to home screen and select ⟦↦ Logout⟧

5. Please reconnect to the charging unit and plug in to power.

Herringbone

1. Select ⟦≣ REVERSE⟧ to change bail numbers from ascending to descending.
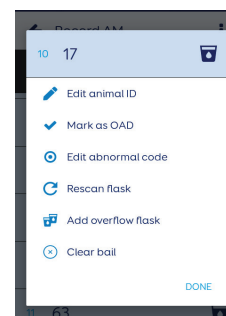

- Alternative scan ON – select before entering first animal ID in row.

- Alternative scan OFF – select before entering any animal IDs or before scanning any flasks in row.

2. Select ⟦➕ ADD EXTRA BAIL⟧ to add an extra bail.
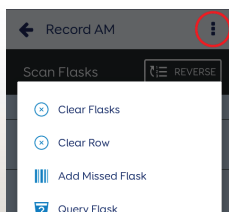

3. Select ⟦SCAN FLASKS⟧ after entering all animal IDs in the row. (Alternative scan off).

4. Select ⟦COMPLETE ROW⟧ after scanning flasks to start a new row.

5. Tap on the bail to bring up below options:

6. Select the 3 dots in top right hand corner to the display following options:

7. Short row - skip all remaining empty bails.

- Scroll to bottom of record screen.

- Select ⟦SCAN FLASKS⟧

or ⟦COMPLETE ROW⟧

- Confirm by selecting "Begin Scanning" or "Complete Row" on warning.

8. When finished session select to go back to home screen and select ⟦↦ Logout⟧

9. Please reconnect to the charging unit and plug in to power.
