Portable EID Readers

XRS2i Stick Reader

Read, record, edit and customise individual animal information. Compatible with NAIT tags.

- 1 million scanned-tag memory.
- Reads all HDX and FDX tags.
- Reads up to 1,100 tags per minute and read distance for HDX tags up to 330 mm and FDX tags up to 350 mm.
- Add and edit session names and NAIT details to keep track of each session.
- Long life and fast charging battery.
- Bluetooth® Class 1 wireless technology to connect to Weigh Scale Indicators or other devices up to 100 m away.
- Capture up to 15 pieces of customised information for each animal e.g. breed, sex, DOB and condition score.
- Simple and fast to set-up with predefined setups or save your favourite setups.
- Fast tag reads with feedback through vibrating handle.
- Easily download device data using Data Link for Windows, Apple iOS and Android.
- Alphanumeric keypad for flexible data entry.

SRS2i Stick Reader

Read and record EID tag information using an ergonomically designed reader. Compatible with NAIT tags.

- 250,000 scanned-tag memory.
- Reads all HDX and FDX tags.
- Reads up to 1,100 tags per minute. Read distance for HDX tags up to 330 mm and FDX tags up to 350 mm.
- Long life and fast charging battery.
- Bluetooth® Class 1 wireless technology to connect to Weigh Scale Indicators or other devices up to 100 m away.
- Fast tag reads with feedback through vibrating handle, with quick access keys for simple navigation.
- Captures EIDs, pre-loaded VID numbers and session count.
- Options to display a visual ID for scanned animals and to discard duplicate IDs.
- Easily download device data using Data Link for Windows, Apple iOS and Android.

Beef Tags

No matter whether you intend to sell or rear your dairy beef calves, our selection of dairy beef tag sets will ensure ease of management and a recognised point of difference at sale time.

BeefPrint® Tag Set

- NAIT HDX Birth ID Tag set
- Double medium
- Only available in green

Exclusively available for farmers who utilised LIC BeefPrint®-evaluated beef sires. BeefPrint® sires have feed intake and environmental footprint efficiency estimates per kg of meat product. When feed is the #1 cost of production and intake is correlated to emissions, make sure your dairy beef animals are recognised for their efficiencies with a BeefPrint tag set.

$7.35

Also available: Angus X BeefPrint® pack for BeefPrint®-evaluated Angus Sires

Angus X Dairy Tag Set

- NAIT HDX ID Tag set
- Double medium
- Only available in green

Out of an exciting partnership with AngusPure NZ Ltd and Allflex, Angus X Dairy tag sets are now exclusively available through LIC. Angus X tag sets are available for calves by on-the-hoof or AB registered/ performance recorded Angus cattle, of which every Angus bull supplied by LIC is. Get recognition for quality and give buyers certainty in the parentage of your premium beef stock with Angus X Dairy tag sets.

$7.35

All prices are exclusive of GST and NAIT levy (Currently $0.97 per EID tag)

For more information or to check whether your beef sires are BeefPrint-evaluated contact your LIC representative.

LIC®

Allflex®

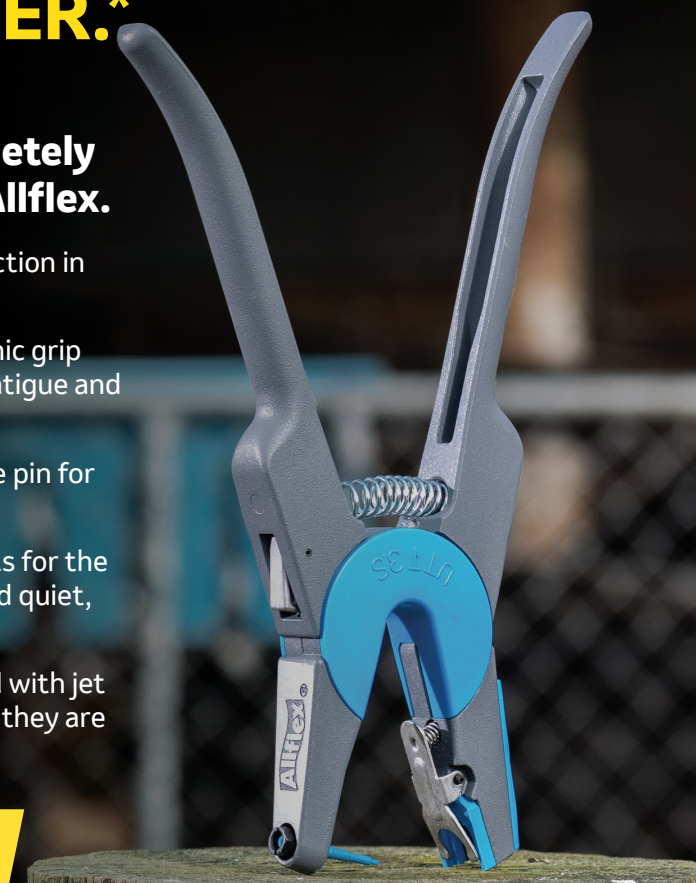
MSD Animal Health

YEAH, IT'S ALLFLEX.

PLACE YOUR ALLFLEX ORDER EARLY TO GRAB A FREE NEW TAGGER.*

The UTT3S applicator is a completely re-engineered applicator from Allflex.

- Requires much less force with a 30% reduction in squeeze pressure to reduce fatigue.
- Smooth — The UTT3S applicator ergonomic grip requires low force, resulting in less hand fatigue and easier application of multiple tags.
- Simple — Lightweight and robust with one pin for nearly all applications.
- Safe — Designed with reduced pinch points for the user, the UTT3S applicator is also quick and quiet, reducing animal startle reflex.
- Allflex visual tags are permanently marked with jet black LaserPlus technology to ensure that they are readable for the life of the animal.

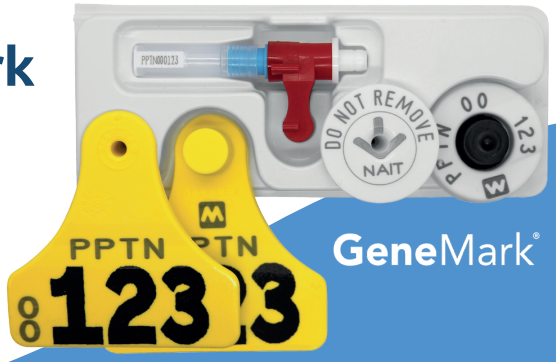


Order 40 or more Calf Packs before 30th April 2024 and receive a FREE Allflex UTT3S applicator (T's & C's apply).

TERMS AND CONDITIONS – LIC AND ALLFLEX APPLICATOR 2024 PROMOTION:
Promotion is 1x Allflex UTT3S applicator (22147) (the "Applicator"). There are 3000 Applicators available with one Applicator despatched per participant code for the first 3000 qualifying orders. To qualify, orders must be placed between 30th November 2023 and 30th April 2024 and despatched from 1st January 2024 to the 9th May 2024. Qualifying orders must contain a combined minimum quantity of 40 of the following qualifying products: EID calf packs, Birth EID's or Replacement EID tags. The Applicator is not redeemable for cash, other products or exchangeable for any other applicator. An Applicator will be despatched with each qualifying order until all 3000 Applicators have been despatched. Current LIC and Allflex employees are not permitted to enter the promotion. By placing a qualifying order, you are bound by these Terms and Conditions. LIC and Allflex reserve the right to amend these Terms and Conditions at any stage, and without notice.

TERMS AND CONDITIONS – LIC, GENEMARK® AND ALLFLEX 2024 PROMOTION:
Promotion prize is 1x $1,000 GeneMark voucher (the "Prize"). There are 25 Prizes to be won. All qualifying orders placed between 30th November 2023 and 30th April 2024 and despatched from 1st January 2024 to the 9th May 2024 will get an automatic entry into the promotion to win one Prize. Qualifying orders must contain at least one AP1 or AE1 GeneMark calf pack with one entry per participant code. The Prize is not redeemable for cash, any other products or transferrable to any other parties. Five winners will be drawn from each LIC territory (upper North Island, lower North Island, upper South Island, lower South Island and Key Accounts) and Allflex will notify the winners by email. Current LIC and Allflex employees are not permitted to enter the promotion. By placing a qualifying order, you are bound by these Terms and Conditions. LIC and Allflex reserve the right to amend these Terms and Conditions at any stage, and without notice.

Order your Allflex GeneMark Calf Pack early for a chance to win a $1,000 GeneMark voucher.* (T's & C's apply)



PROVEN INNOVATIONS FROM ALLFLEX.

Premium
GeneMark Calf Pack (TH1) includes:

- HDX Premium Birth Pack (AP1) consists of:
  - NAIT HDX (high performance) Electronic Birth ID tag set
  - Double Medium Visual Birth ID tag set
- Pre-paired TSU sample matched to the Birth ID

Economy
GeneMark Calf Pack (TH2) includes:

- HDX Economy Birth Pack (AE1) consists of:
  - NAIT HDX (high performance) Electronic Birth ID tag set
  - Medium Female Visual tag paired with a Male Button
- Pre-paired TSU sample matched to the Birth ID

TSU
Allflex Tissue Sampling Unit provides:

- Allflex TSU is the most up to date tissue sampling system available. The TSU boasts the lowest resampling rate, so long as used correctly, the TSU provides a high-quality sample every time.
- Allflex TSU is the only tissue sampling system approved by GeneMark.

Advantages of the **Allflex/GeneMark Calf Packs** (TSU/Tag Set):

- These sets are designed to virtually eliminate errors when taking tissue samples from your heifers. The TSU tube has the heifer's Birth ID laser marked on the side and into the 2D barcode on the base, eliminating manual recording. The induction of your sample at the LIC GeneMark Lab is electronic via this 2D code and provides absolute accuracy.

Allflex provides LIC customers with the highest quality visual and electronic tags.

- Allflex visual management tags are better for you with advanced LaserPlus marking providing proven, convenient & durable identification.
- Allflex NAIT compliant electronic tags boast Highest Performance (HDX) and Lowest Cost (FDX) coil formed transponders, providing performance and retention unmatched by any other devices.
- Allflex HDX tags have proven to be the preferred option for Protrack Dairy Automation systems right from the start.

Gallagher EID Wands

Visit LIC webshop to order yours today!

HR4 v2 Hand Held EID Tag Reader

- Easily share/export data to NAIT and LIC's MINDA™ App.
- Easily connect via Bluetooth to other devices, such as a smart phone or weigh scale.
- Large, easy to read LCD clearly shows (even in direct sunlight) visual and EID tag numbers to confirm the correct animal's information.
- Choose multiple traits to record against each animal such as breed, sex, condition score, and pregnancy status.
- Make drafting decisions in the yard. Pre-defined sort groups are assigned a colour to quickly identify the animal you are looking for.
- View animal history - see past traits, activities and life data previously recorded against that EID number.

HR5 v2 Hand Held EID Tag Reader

- Everything the HR4 v2 can do, and more!
- Add and edit visual IDs in the yard.
- Add birthing details and data such as sex, birthing ease and fate, and link mothers to their offspring.
- Numeric, text, date and pick-list type traits can be entered.
- Animal notes can be set to appear when the animal is next scanned.
- Personalise session names to make it easy to identify sessions.

Tag Regulations

	Primary Tag	Secondary Tag
Animals going to slaughter		Not required
All other animal movements		One of the options below is recommended for all dairy replacements

PLEASE NOTE

Bobby calves (animals less than 30 days old and going direct to slaughter) are exempt from the NAIT scheme. Capital stock (those born before 1 July 2012) remaining on farm must now be tagged with a NAIT approved EID tag.

However, all calves born from 1 July, 2012 need to be tagged within 180 days of birth or prior to the first off farm movement, whichever occurs first.

Primary tags are lifetime tags and it is illegal to remove them without permission from OSPRI.

Application of EID Tags

1

Depress the spring clip on your applicator and load the female tag.

If using Allflex HDX tags please ensure the bump in the tag is facing out of the open end of the application.

2

Slip the male tag over the applicator pin.

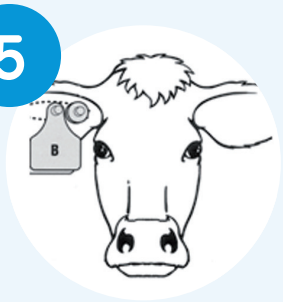
3

Dip the applicator in disinfectant.

4

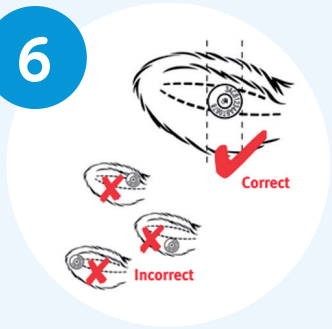
Locate the correct position for the EID tag in the RIGHT ear.

5



For maximum retention place in the middle of the ear.

6



Apply the tag ensuring the male tag enters from BACK (outside) of the ear.

IMPORTANT

Always use the correct applicator to ensure that the microchip is not damaged and that the tag is attached securely.

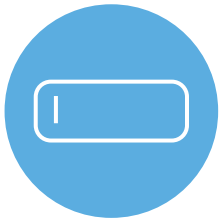
Retrieving a Tag File

EID files are available to download from the Allflex website, www.allflex.co.nz.
To retrieve the EID tag file follow these instructions.

Step 1

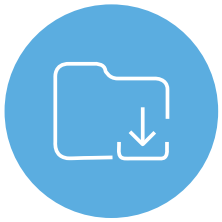
Select the 'Download EID tag file' link on the suppliers home page.

- www.allflex.co.nz



Step 2

Enter the order number.
Enter the order reference.



Step 3

Select the order line you wish to download.

Step 4

Save file to your computer.

PLEASE NOTE

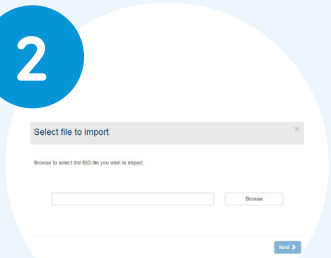
Birth ID and replacement EIDs purchased through LIC will be imported automatically into MINDA.

Importing an EID Tag File into MINDA®

1

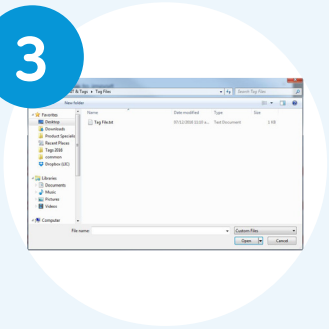
In the ‘Events’ tab of MINDA LIVE under ‘Import’ click on ‘EID’. This will open the import wizard.

2



The next screen asks where the EID file is located. Click ‘Browse’ and select the file from the location you have saved it to.

3



In the location you have saved the file select the text file and click ‘Open’. This will return you to the previous screen where you will select ‘Next’.

4

The ‘Confirm file import’ screen will show you the EIDs you are about to import. Click on ‘Next’.

5

Click on ‘Next’ to start the import.

6

A message will then appear at the top of the screen advising that the import was successful.

One herd platform, **one smart decision**

Farmers have enough on their plate without having to think about double-handling herd records, so they stay one step ahead and choose MINDA®.

Utilising key integrations with NAIT, in shed automation, cow wearable technology and more, MINDA uses real time animal information to keep herd records up to date.

Contact your local Agri Manager to have a chat about MINDA making a difference to your farming operation.

MINDA®

LIC®

MINDA® Wearables Integrations

To enable farmers to unlock even more value from their wearable investment, LIC has partnered with some of the world's leading suppliers of cow wearables to enable data flow between the wearables and MINDA.

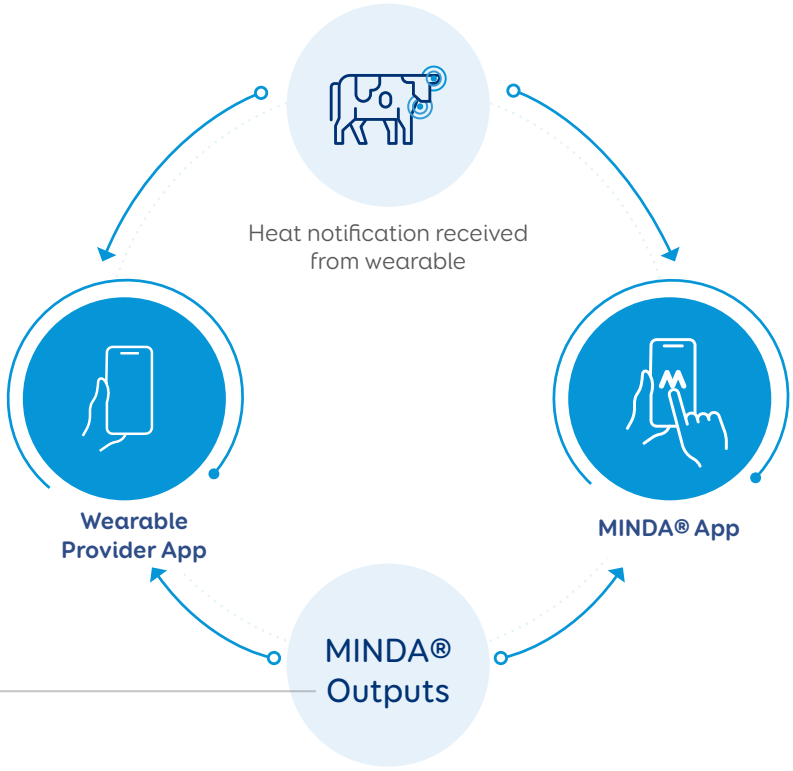
LIC's Partners

LIC's MINDA herd management system integrates with:

afimilk Automating Dairy Farms · CowManager · Tru-Test DATAMARS · smaXtec · WAIKATO MILKING SYSTEMS · Halter · GEA Engineering for a better world.

How cow wearable data works with MINDA®

- Access animal data in on centralised location.
- Save time with data-input.
- Reduce the risk of data-input errors.
- Gain great herd insights by combing cow wearable data with animal records in MINDA®.



- Mating Sire ID.
- Expected Calving Date.
- Pregnancy Diagnosis Status.
- Pregnancy Diagnosis Date.
- Body Condition Score.
- And many more
